Welcome to Nike Winflo 12

Every Customer is looking for something different. Some want a fast shoe for race day, while others want comfort for easy runs, walks and everyday movement.

The Nike Winflo 12 is a men's road-running shoe made for Customers who want soft cushioning, a balanced feel underfoot and a comfortable fit. In this course, you will learn who the shoe is best for, how to explain its benefits simply and how to recommend it with confidence.

Customer Moment

A Customer walks in and says, *"I am looking for a comfortable shoe for my easy runs and daily walks. I do not need a race shoe. I just want cushioning that feels good."*

This is a good clue that the Nike Winflo 12 may be the right shoe.

This Customer is not looking for speed or a race-day shoe. They want something comfortable for everyday runs and walks. The Nike Winflo 12 is a good option because it offers soft cushioning, a stable feel and a comfortable fit.

Your learning Journey

You will first get to know this men's road-running shoe and its main benefits. Then you will learn who it is best for, what is new and how to recommend it during a Customer conversation.

Let's get started.

Product basics

Let's start with the basics. As you work through this lesson, think about the Customer who wants one comfortable shoe for everyday runs and walks.

The Nike Winflo 12 is made for Customers who want comfort during easy runs, walks and everyday activities. It has soft cushioning, a broad platform that helps the foot feel balanced and secure, and a comfortable fit. Customers may describe this need by saying they want a shoe that feels steady, supportive or less wobbly underfoot.

A SIMPLE WAY TO EXPLAIN IT

"The Nike Winflo 12 gives you soft cushioning, a balanced feel underfoot and a comfortable fit for your everyday runs and walks."

How to explain the technology

Now let's look at the features inside the shoe. As you explore each one, ask yourself: How does this help the Customer? Keep your explanation simple. Tell the Customer what the feature does, how it helps and why it matters to them.

Cushlon 3.0 foam

What it means?
Soft foam under the foot.

Customer benefit
Helps the Customer feel cushioned and comfortable.

Say it like this
"The soft cushioning helps keep you comfortable during everyday runs."

1 of 6

SALES TIP

You do not need to explain every feature. Ask what the Customer needs, then focus on the one or two benefits that matter most to them.

Nike Winflo 12 Customer fit overview

Start with the Customer, not the shoe. Ask how they plan to use it, then decide whether the Winflo 12 matches their needs. It is a good option when comfort matters most for everyday runs, walking or general use.

If the Customer wants…
Easy, everyday road runs

Why the Winflo 12 may fit
Soft cushioning helps the Customer feel comfortable on everyday runs.

Simple recommendation cue
Recommend it when comfort is the main goal.

1 of 5

When It May Not Be the Best Match

- Fast intervals or speed sessions
- Tempo runs where the Customer wants a light, quick feel
- Race day performance
- A Customer who prioritises a lightweight, agile shoe

BE HONEST WITH THE CUSTOMER

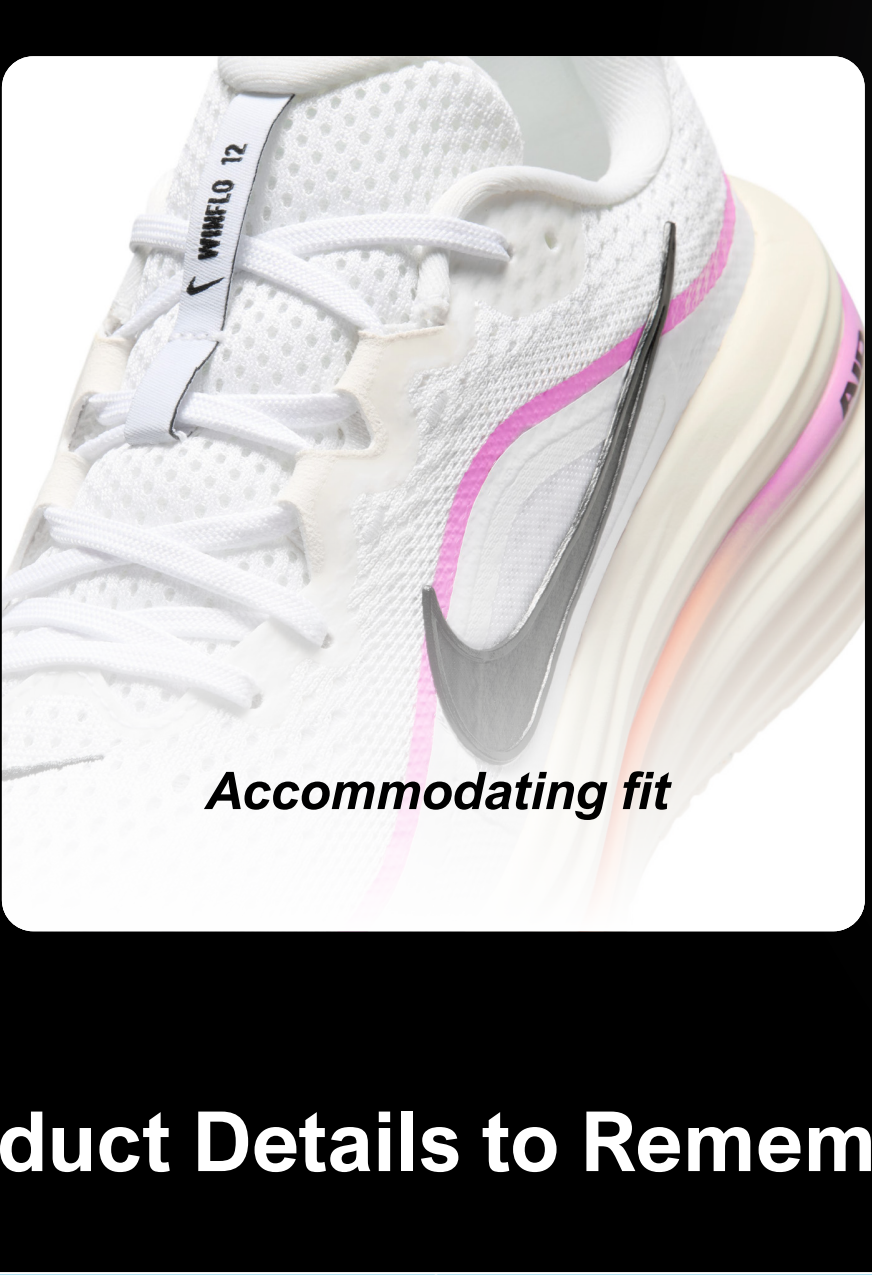
If the Customer wants speed or a race-day shoe, be honest that the Winflo 12 is made for comfortable everyday running. Then help them find a lighter performance shoe that better suits their goal.

What is new in the Nike Winflo 12

A Customer who knows the Winflo 11 may ask what has changed. Use these three updates to explain what is new in a simple way.

What is new?

Increased Cushlon 3.0 foam stack height



Accommodating fit

Open-hole mesh upper

Product Details to Remember

Detail	Specification
Product type	Men's road-running shoe
Style code	HV9272
Weight	Approximately 322 g / 11.37 oz in a men's US size 10
Heel-to-toe drop	10 mm

KEEP IT CUSTOMER-FRIENDLY

Only share the weight and heel-to-toe drop if the Customer asks. Most of the time, focus on comfort, cushioning, fit and how they plan to use the shoe.

Key selling message

Start with the Customer, not the shoe. Ask how they plan to use it, then decide whether the Winflo 12 matches their needs. It is a good option when comfort matters most for everyday runs, walking or general use.

ASK	Ask how the Customer plans to use the shoe.	*"What type of running or activity will you use the shoe for?"*
MATCH	Link the Customer's need to the right feature.	*"You said comfort matters most, so I would look at the Cushlon 3.0 cushioning."*
EXPLAIN	Explain how the feature helps the Customer.	*"It gives you a soft, cushioned feel for everyday runs."*
RECOMMEND	Recommend the shoe and explain why it matches their needs.	*"Based on what you have told me, I recommend trying the Nike Winflo 12.*

Customer scenario

Read what the Customer says below. Before you look at the example, think about what you would ask, which benefit you would focus on and how you would recommend the shoe.

SALES TIP

You do not need to explain every feature. Ask what the Customer needs, then focus on the one or two benefits that matter most to them.

A-M-E-R stands for Ask, Match, Explain and Recommend. It helps you keep the conversation simple. First, ask how the Customer will use the shoe. Then match their needs to the right benefit, explain how it helps and recommend the shoe if it is a good fit. This helps you make a useful recommendation based on what the Customer needs.

Store Associate response using A-M-E-R

ASK	*"Will you mainly use the shoe for easy road runs and walking?"*
MATCH	*"The Winflo 12 has soft cushioning and a stable base."*
EXPLAIN	*"This helps the shoe feel comfortable and secure during your runs and walks."*
RECOMMEND	*"Based on what you have told me, I recommend trying the Nike Winflo 12. It gives you the everyday comfort and cushioning you are looking for."*

Experienced-runner scenario

Customer says	Helpful response
"I already own a fast shoe for workouts. I need a comfortable option for recovery runs and walking between sessions."	*"The Winflo 12 could complement your faster shoe. Its soft cushioning and broad platform suit easy-paced recovery runs and everyday walking. Try it on and compare the fit and feel with your current shoes."*

Match Customer Needs to Benefits

If the Customer says…
"I want a soft shoe for easy runs."

You can say…
"The soft cushioning helps keep you comfortable during easy runs."

1 of 6

Practice knowledge check

Read each Customer scenario and choose the best answer. After each question, show feedback that explains why the correct answer is the best choice.

Assessment

A Customer says, "I run regularly and already have a lightweight shoe for speed sessions. I want a comfortable second shoe for recovery runs and long walks."

What is the best response?

A. Recommend another race shoe so both pairs feel equally fast.

B. Recommend trying the Nike Winflo 12 as a cushioned option for recovery runs and walking.

C. Recommend the Winflo 12 for all sessions without discussing how it fits into the Customer's shoe rotation.

Question **1** of **3**

How to explain the technology

You have reached the end of the course. You can now identify the right Customer, explain the benefits that matter most and use A-M-E-R to recommend the Nike Winflo 12 with confidence.

Remember

- It is a men's road-running shoe designed for comfortable everyday use.
- Cushlon 3.0 foam and the Nike Air unit provide soft cushioning.
- The roomy fit and breathable upper support comfort.
- It is best suited to easy runs, relaxed runs, walking and everyday use.
- It is not the first choice when the Customer's priority is speed or racing.
- Use A-M-E-R: Ask, Match, Explain and Recommend.

If the Customer wants similar features in another shoe

Ask what they want to keep—cushioning, room, breathability or a steady feel—and what they want to change. Then compare suitable options, encourage them to try the shoes on and recommend the one that best matches their use and fit preference.

EASY CLOSING LINE

"Based on what you have told me, I recommend trying the Nike Winflo 12 because it gives you the cushioning and everyday comfort you are looking for."

When you understand what the Customer needs, it becomes easier to explain the right benefit and make a helpful recommendation.
